

## Horicon Marsh | Donor Wall

### CLIENT

Horicon Marsh International Education Center  
Nanette Gassner  
920.387.7860

### LOCATION

Horicon, Wisconsin

### DATE

Fall 2009

### PROJECT SCOPE

70" X 90" Donor Wall

### MATERIAL/PROCESS

Digital Displays, Digital Prints, Laminate, Wood

### BUDGET

\$17,500

This visually interactive recognition display begins with push-through acrylic copy, vividly illuminating the campaign's most significant donor. A large, interchangeable graphic forms a center piece that is also back-lit within the LED illuminated cabinet. Digital displays presenting image slide shows are integrated to be easily accessed for updating while secure enough to prevent theft and damage. Various panels utilize a system of magnetic inserts with donor names, creating an updateable solution. All the more, materials and colors were precisely matched to correspond with the facility's earthy tones and architectural framework.
