

Fox Cities Performing Arts Center | Annual Partners Wall

These eight contemporary glass panels with aluminum framework communicate the appreciation and outstanding value that each annual partner brings to the performing arts community. The display initiates a statement of gratitude with aluminum dimensional letters positioned above the panels. As each graphic was digitally printed on transparent Mylar film, scaling was cautiously measured to ensure legibility and appropriate recognition. The panels are especially unique in that each background insert can be easily replaced. The updateable display is secured with brush finished aluminum channels and mechanical fasteners to ensure permanence, even throughout a high traffic area.

CLIENT

Fox Cities PAC
Carissa Hibbard
